

Seizure Protocol

We'd like you to know what the protocol is here at Chemeketa Community College with regard to seizure disorders and the event of a seizure on campus.

If a student or staff member has a seizure on campus, the protocol is for 911 to be called. If, when the emergency services arrive, the person is able to clearly communicate that they do not wish to be transported to the hospital, that will be assessed by the EMTs and honored unless the medical professionals determine transport is necessary.

If the student or staff member wishes someone be contacted, they are advised to wear a medical alert that will communicate that information to the EMTs.

Chemeketa Community College is an equal opportunity/affirmative action employer and educational institution.
